

Steven Suskin
Senior Associate

Steven has touched nearly all aspects of information technology during the past 20 years including operations, project management, agile development, infrastructure implementation and has a deep understanding of data warehousing, business intelligence, data management, development, support and project management. Augmenting his diverse information technology credentials are Steven's significant director and project management experience in the health care industry environment. Steve has a passion for building processes and systems that exceed expectations and delight end users. His experiences have allowed him to assemble both the technical and business parts of assignments together in a way that fosters trust and understanding and leads to success.

Steven has a Master's in Business from the University of California Riverside as well as an MPH and BA from UCLA. He is a Certified Scrum Master and is a Project Management Institute certified Project Management Professional (PMP). In addition, Steven is certified in ITIL Foundations, TOGAF Enterprise Architecture Foundation and has earned an MCSE.
